Integrations

cuboh

Consolidate ordering into a single tablet

Cuboh integrates your delivery apps with your POS and consolidates them into a single tablet.

Consolidate all your online orders from a single device.

With real-time reporting and insights, analyze your restaurant's performance and make decisions that best fit your business. Enjoy other features such as:

• Adjusting order prep and customer-facing wait times
• Menu management—86'ing menu items
• Order updates—up-charges, refunds, cancellations
• Detailed Analytics
• Customer support 7 days a week
• Automatically send orders directly to the back kitchen

Cuboh seamlessly integrates your order management ecosystem, no matter your business size.
